sciences.  
Major -  
«Russian as a foreign  
language»

120 000 RUB

# Student's reviews

## **Zulfia Allabergenova (3rd year student, major “Russian as a foreign language”)**

I came to Nizhny Novgorod from Turkmenistan. One of the main advantages of my studies is the opportunity to use Russian in everyday life and communicate with native speakers.

In addition to compulsory educational program, Minin university always provides us with opportunities to participate in various competitions and scientific contests. I took part in the IX International Festival of National Cultures and I won the 2nd place in the essay competition. I will definitely recommend Minin university to my friends.

## **Chinora Dosmuradova (4th year student, major “Russian as a foreign language”)**

I came to Minin University from the Turkmenistan. I really like that the Faculty of Humanities where I study, carries out various scientific conferences and workshops. I participated in one of them (“Genius Loci”). Moreover, I took part in the IX International Festival of National Cultures "In This Big World" and won the 1st place!

# Expert review

**Ms. Natalya Guzhova**

**(Candidate of Pedagogical Sciences, Associate Professor, Department of Russian as a Foreign Language and General Scientific Disciplines, Nizhny Novgorod State University of Architecture and Civil Engineering)**

All educational programs and practical trainings of this major, as well as the state final examination program, correspond to the required competencies and skills that graduates must possess.

Also, the program fully meets all the requirements and social needs of the Nizhny Novgorod region. The major “Russian as a foreign language” corresponds to the latest trends in pedagogical education and we believe that this program will attract a lot of applicants from all over the world.
